## Announcement

### Energy Management Policy

UAC Global Public Company Limited and its group companies recognize the importance of utilizing energy resources efficiently. Accordingly, the Company is committed to establishing clear energy conservation practices for all employees, ensuring collective participation and alignment with unified guidelines. This initiative aims to reduce operating costs and promote energy savings in accordance with government policy.

The details of this policy are as follows:

- 1. Energy conservation is an integral part of organizational operations.** Management must place priority on implementing effective energy management practices.
- 2. The Company encourages all employees to participate in energy conservation** by adhering to established energy management guidelines, with the objective of reducing energy consumption and production costs.
- 3. The Company emphasizes compliance with the Energy Conservation Promotion Act (Revised 2007)** to ensure effective energy conservation within the organization.
- 4. Energy conservation is regarded as a responsibility of both management and employees at all levels,** who are expected to cooperate in implementing prescribed measures, monitoring, auditing, and reporting to the Energy Management Committee.
- 5. The Company requires an annual review** of the energy management policy, energy reduction targets, and energy conservation action plans at least once per year.
- 6. The Company promotes training and knowledge-sharing programs** to enhance employees' understanding of energy conservation and ensure consistent practices across the organization.
- 7. The Company is committed to improving energy efficiency** to achieve optimal and sustainable energy utilization.

This policy shall take effect from **May 24, 2023** onwards.

**Announced on May 24, 2023**

(Mr. Chatchaphol Prasopchoke)  
Chief Executive Officer and President

UAC Global PLC.
